Subject: Stop Work Notice for Gamma Test Pad Work Plan Implementation
Importance: High

As you know, the government has been shut down because congress has not approved a budget. I will not be able to come to work until the government shutdown ends. In addition, our oversight contractor has been given a stop work order. Therefore, EPA will not be able to provide oversight of the work to implement the change to the gamma test pad work plan. EPA has committed to the Tribes that there will oversee all activities on the project.

Because EPA is unable to provide oversight, the work on the test pad may not continue until the government shutdown is over and EPA is again able to provide oversight.

Kevin Rochlin
